

## BREAKING NEWS: AP PAVERS ARE EXPANDING!

AP Pavers is pleased to announce that we are due to take delivery of a brand new Vögele 1800-3i very soon.

The SUPER 1800-3i is the most powerful tracked paver in its performance class and ideal for a wide variety of paving applications. With a maximum pave width of 10m, yet based on a machine length of just 6m; the 1800-3i handles motorway projects with the same high perfection as it copes with confined spaces when tackling roundabouts.

Equipped with the AB 500 TP2 Compaction system, the Vögele 1800-3i is capable of delivering an excellent high compaction performance with all RCC, HBM and CBM materials.

## LABOUR HIRE EXPANSION

**Due to expansion we are investing in more labour hire. To uphold our reputation; AP Pavers only recruits experienced, reliable and proficient employees to insure our clients receive the best result possible.**

We can provide skilled operatives that compliment and enhance your existing crews or alternatively a full surfacing crew. AP Pavers are able to supply screwmens, paver, roller and tractaire drivers, chipping and surfacing operatives.

All AP Pavers crews are fully trained and have the experience and expertise to complete projects to the highest standards. Our operatives and plant operators hold CSCS and CPCS/NPORS Qualifications.

## SPECIALIST TRAINING PROVIDED

Our commitment to training means that each of our site operatives hold a CSCS and NPORS (experienced operative) card; and are trained to a minimum of NVQ2. Therefore you can depend on our teams to have the skills, reliability and efficiency to deliver each time, without fail.

AP Paver's serious approach to training means that our customers can depend on us to safely, and professionally complete all jobs. Our teams have extensive experience in dealing with different hazardous waste materials, and are fully qualified at efficiently dealing with all situations.

We believe the evidence of our commitment to health, safety and the environment lies in our excellent safety record.
