Onsite repairs and servicing

With a nationwide team of highly skilled, dedicated service engineers you are guaranteed to get all the expertise and technical support you require from AP Pavers.

On the occasion that you experience a breakdown, we take the pain out of the repair process. Our in depth technical knowledge is extensive and with continuous factory support we are confident that we can solve all issues with Vogele pavers.

We are totally committed to maximising client production potential and minimising costly downtime. Whether it is service support or friendly professional advice you require, you can trust that

AP PAVERS WILL ALWAYS BE ON HAND.

Refurbishment

Refreshed and ready

Today's surfacing contractor finds breakdowns very expensive. This is due to the nature of paving materials and the requirement to order in advance of paving. So it naturally follows that the paver needs to be in the best possible conditions at all times.

The higher the quality of the rebuild the longer the paver will produce the results you require on site.

This is where we can help you. AP PAVERS have been a leading player in the paver market for over 20 years and are the natural solution when it comes to paver cost effective reconditioning and maintenance to exacting, consistently high standards. Our commitment to paver quality is absolute.

We can offer the following maintenance services:

- Full and comprehensive overhauls
- Screed overhauls
- Routine servicing
- Repainting of pavers inc shot-blasting
- Technical advice and inspections
